Welcome to surestop

Surestop is a unique and innovative stopcock range, focused around protecting properties from the risk of water damage. With a simple flick of a switch, Surestop stopcocks will completely STOP the water supply - without the use of batteries or electrics. Surestop is easy and quick to install and use over traditional stopcocks.

Why install a Surestop Stopcock instead of a brass stopcock?

- Instant protection - stops water with an easy flick of a switch
- No electrics or batteries involved, it works purely on the water pressure
- Provides ability to increase your annual sales
- Simply and quickly fitted in less than one hour
- Easy to use, easy to access and, unlike a brass stopcock it won’t seize up
- WRAS approved as a stopcock
- Available with either push-fit fittings for simpler installation of pipe, or traditional compression
- Ideal for all residential and light commercial installations

Proven performance throughout the UK, with over 1 million Surestop Stopcocks fitted.

SURESTOP STOPCOCKS
- Instantly stops water through a flick of a switch
- Easy to find and access; ideal for residents of varying ages and abilities
- Limescale resistant - won’t seize up or corrode
- Lowers the risk of damage caused by a water leak

BRASS STOPCOCKS
- Susceptible to seizing up; making it longer and harder to stop the water
- Can be difficult and time consuming to locate and access
- Can corrode over time from limescale
- Increased risk of a water leak causing greater damage
